BORDERLESS.

A PASSION FOR LEARNING AND SEEING THE WORLD

Our international academic mobility programs enable students to spend one or two semesters studying at the UCC and participating in various comprehensive educational activities.

To promote student integration into university life and the city, and to help them make the most of their experience, we offer students the following opportunities:

UCC Buddy Program

This program promotes international students' integration and cultural inclusion by sharing and exchanging experiences with local students.

You can also join the Tandem Language Club and the Social and Cultural Club.

Advanced Spanish Language Course

International students can participate in a semester-long advanced Spanish course. This is a 60-hour, open, and free course (please verify the hours), which can count towards your academic credits.

"I'd definitely recommend the UCC, as it offers many opportunities and resources for students to continue planning their professional journey."

Angelina, a student at the Universidad Antonio Ruiz de Montoya (Peru)

"What I love the most about the UCC is its campus. The facilities where we study, the buildings, and the people - my fellow students, the exchange team, and the professors - have always been kind and very welcoming."

Clara, a student at the Sciences Po Saint-Germain-en-Laye University (France)
