

CRITERIA FOR DETERMINING THE FINAL GRADE
FINAL DISSERTATION EVALUATION CRITERIA

PHYSICS

Faculty of Mathematical, Physical and Natural Sciences

BASIC COUNT	<p>All the marks of the exams are added together multiplied by the number of ECTS of each exam (<i>30 cum laude</i> is counted as 30).</p> <p>Any supernumerary exam is excluded from the count.</p> <p>The sum is divided by the total weight in ECTS of the teachings considered (average out of 30).</p> <p>The average out of 30 thus obtained is converted into a grade out of 110 by multiplying the value obtained by 11 and dividing it by 3.</p>
BONUS FOR “CUM LAUDE” MARKS	<p>The following is added, indicating with x the number of ECTS obtained <i>cum laude</i>: x divided by 12 if x does not exceed 12; $1 + (x-12) / 100$ if x exceeds 12.</p>
FINAL EXAMINATION SCORE	<p>from 0 to 6 points</p>
