

SCORE CALCULATION FORMULAS

Score calculation

Destination selections are processed separately within each Faculty. In order to calculate one's merit score, it is necessary to add together the sub-scores for five elements:

- Weighted average
- ECTS credits
- Language level
- Additional score related to the year of the programme
- High school diploma grade (only for certain faculties)

For international degrees, an assessment will be made on a case-by-case basis.

If you would like to simulate your score, we make the formulae approved by the faculties available below. In the formulas, you must enter your data as specified in the following legend.

Legend

■ Undergraduate degree mark: enter your undergraduate degree mark. Enter zero if enrolled in an undergraduate degree programme; enter 111 if the undergraduate degree mark is 110 *cum laude*.

■ Weighted Average of Examinations

How to calculate your weighted average:

1. Multiply the mark for each examination by the number of credits equivalent to it;
2. Sum all results;
3. Divide by the total number of credits.

Note: 30 *cum laude* should be converted to 31

Note: examinations with an 'approved' mark or examinations without ECTS credits (e.g. Theology) are not included in this calculation.

■ ECTS credits in the curriculum: ECTS credits that it was actually possible to take at the closing date of the programme, in accordance with the curricula of the faculties.

Note: for students enrolled in a Graduate degree programme (excluding Integrated five-year/six-year degree programmes) add 180 ECTS credits. Accumulated ECTS credits: the system will only take into account those already registered in the degree curriculum.

Note: for students enrolled in a Graduate degree programme (excluding Integrated five-year/six-year degree programmes) add 180 ECTS credits.

■ Year of the programme: Enter a score according to the table for your faculty, given in the individual faculty sections.

■ Language level score: enter your score according to the table on the following page

Parimerito

In the event of two or more tied students, a broader evaluation of the applications will be carried out, and further academic data may also be taken into account prior to enrolment at Università Cattolica.

Language level scores

Language level	Score to be entered if obtained by INTERNAL TEST	Score to be entered if obtained with CERTIFICATION (see CEFR table)
0	0 points	0 points
A1	10 points	15 points
A2	20 points	25 points
B1.1	35 points	40 points
B1.2	50 points	55 points
B2.1	60 points	65 points
B2.2	70 points	75 points
C1.1	80 points	85 points
C1.2	90 points	95 points
C2	100 points	105 points

■ Faculty of Medicine and Surgery - Medicine - Pharmacy

The calculation formula is worked out according to the following parameters:

- Academic merit: weighted average of examinations taken and registered by the closing date of the competition of not less than 25/30
- Language requirements: the candidate's language tests must meet the minimum requirements of the host university. No additional marks are awarded for the language level achieved

- Faculty of Economics
- Interfaculty Medicine and Surgery - Economics
- Interfaculty Economics - Mathematical, Physical and Natural Sciences

Score for the year of the programme

2nd year - Undergraduate programme.....8 points

3rd year - Undergraduate programme (also supplementary year students and repeaters).....12 points

Graduate degree programme (all years).....20 points

Punteggio media

$$\left\{ \left[\left(\frac{\text{Voto laurea triennale} \cdot \frac{31}{111} + \text{media esami ponderata}}{2} \right) - 17 \right] \cdot \frac{100}{14} \right\} \cdot 0,5$$

Se il voto di LT uguale a zero o media esami ponderata uguale a zero non dividere per 2

Punteggio CFU

$$\left(\frac{\text{CFU accumulati}}{\text{CFU previsti dal piano di studi}} \cdot 100 \right) \cdot 0,3$$

Punteggio livello linguistico

[punteggio livello ling. + 5 (in caso di certificazione internazionale)] • 0,2

- Faculty of Linguistic Sciences and Foreign Literatures
- Interfaculty Linguistic Sciences and Foreign Literatures - Political and Social Sciences

In order to assess the language level of its students, the Faculty of Linguistic Sciences and Foreign Literatures also uses the average marks obtained in examinations relating to the main language of the destination placed first. It will therefore also be necessary to include this information in the formula.

1st/2nd year – Graduate degree programme.....100 points

1st year repeaters and supplementary year students – Graduate degree programme.....90 points

Supplementary year students from 2nd year onward – Graduate degree programme.....start from 80 points and deduct 10 points for each year

■ Faculty of Mathematics

To date, the Faculty of Mathematics does not provide a calculation formula but candidates are only required to meet the prerequisites specified by the individual destinations.

For interfaculty students, the formulas of the respective associated Faculties apply

■ Faculty of Medicine and Surgery

The calculation formula is worked out according to the following parameters:

» Academic merit: weighted average of examinations taken and registered by the closing date of the competition of not less than 25/30

» Language requirements: the candidate's language tests must meet the minimum requirements of the host university. No additional marks are awarded for the language level achieved.

Punteggio media

$$\left\{ \left(\frac{\text{Voto laurea triennale} + \frac{31}{111} + \text{media esami ponderata}}{2} \right) - 17 \right\} \cdot \frac{100}{14} \cdot 0,35$$

Se il voto di LT uguale a zero o media esami ponderata uguale a zero non dividere per 2

Punteggio CFU

$$\left(\frac{\text{CFU accumulati}}{\text{CFU previsti dal piano di studi}} \cdot 100 \right) \cdot 0,35$$
