The third section, titled 'PROCEDURES FOR DISCUSSION OF DISSERTATION', provides useful information about the discussion process. The fourth section, titled 'ARRANGEMENTS FOR THE FINAL EXAMINATION PRESENTATION / PROCLAMATION', mentions that it is possible to choose the discussion method upon submission of the application. FINAL EXAMINATION – Dissertation title

i When writing the title, it is important to strictly adhere to the following criteria in order to be able to include the data in the most correct form in official documents (degree report, academic certificates, University Yearbook)

The title must not be preceded or followed by double quote marks (") or by any other sign (<<); it may begin with any character and if it begins with a letter, this must be capitalised

All other characters in the title must be lower case.

Capitals should be used exclusively for the initial letter of the title (and any new periods after the full stop) and for proper names and in accordance with the rules of any foreign languages used (e.g. German).

When typing the title in the available lines of the video, you must never start a new line, i.e. you must imagine that you have only one uninterrupted line.

WARNING!

Enter the title respecting the rules indicated.
