FILIPPO
Summer Programme
UCLA, Los Angeles

"I had always dreamed of experiencing American college life, and the Summer Programme made it possible. Classes were inclusive and interactive, with group projects, practical activities and direct contact with lecturers. Campus life felt like a movie. Going abroad on my own was one of the best choices I made: it made me more independent, confident and curious, while quickly improving my English."

LEONARDO
International Volunteering
Cusco, Peru

"Volunteering at an animal rescue centre in the Andes is certainly not something you get to experience every day. I had the opportunity to work in the field, improve my Spanish and live with a local family. It was a very direct way to get to know Peru, not just as a tourist, but by truly coming into contact with the people, the culture and everyday life there."

GIADA
Customised Internship
Shanghai

"Living and working in Shanghai was an extraordinary experience. The internship allowed me to grow professionally and gain practical experience in a company, while networking events and cultural activities helped me build an international network. I discovered a completely different culture, stepped out of my comfort zone and developed dynamic and valuable skills for my career."

JACOPO
Summer Programme
ESADE, Barcelona

"I chose to take part in ESADE's Summer Programme because I was looking for a solid international experience, but one that was shorter than an Erasmus exchange. It's an experience I'll always carry with me, because of the people I met, the classes and the professors. It gave me knowledge, skills and, above all, strong connections. If I could give myself one piece of advice before leaving? Don't overthink it: take the leap and go. It's worth it."

CATERINA
Summer Programme
UCL, London

"I chose the Summer Programme at UCL because I wanted to gain experience abroad and engage with international students in the medical field. I was really impressed by both the academic offering and the number of events organised. But the most valuable part was the relationships I built: sharing dreams, aspirations, insecurities and passions with people from all over the world deeply enriched me on a personal level too."

MARTINA
Double Degree
Fordham University, New York

"I chose the Double Degree because I wanted to combine the strong academic foundation I gained at Cattolica with international experience, essential for anyone pursuing a career in a global field like finance. In New York, I found a very practical approach, with group work, business cases, presentations and constant interaction with lecturers and international students. This experience taught me to be more proactive, communicate with greater confidence and approach new situations with self-assurance. Looking back, I can say that this choice profoundly shaped my path and opened the door to many of the opportunities that followed."
