TOPIC –TITLE OF THE FINAL PAPER

The topic of the final examination must be related to a course included in the study plan and the title must be agreed upon with the reference professor.

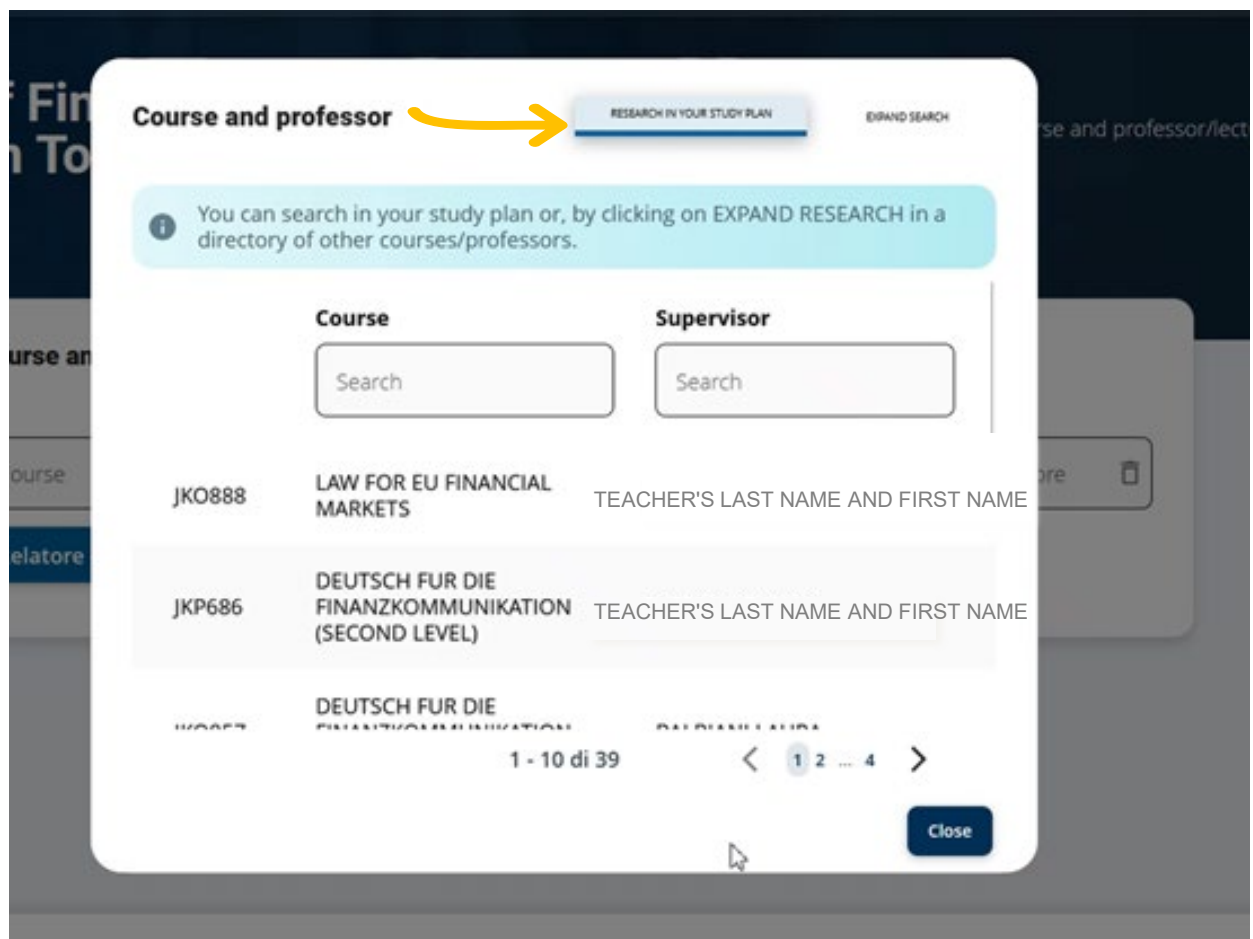

If provided by the Faculty it is visible and you can use the "Expand Research" button, which allows you to search through an additional list. (E.g., if you are a master's student, with a three-year career at Università Cattolica, within the list of teachings you will also find the teachings from your three-year career).

TOPIC –TITLE OF THE FINAL PAPER

1. Choice of Final Examination Topic

ℹ️ When writing the title, it is important to strictly adhere to the following criteria in order to be able to include the data in the most correct form in official documents (degree report, academic certificates, University Yearbook)

99 The title must not be preceded or followed by double quote marks (") or by any other sign (<<): it may begin with any character and if it begins with a letter, this must be capitalised

abc All other characters in the title must be lower case.

Aa Capitals should be used exclusively for the initial letter of the title (and any new periods after the full stop) and for proper names and in accordance with the rules of any foreign languages used (e.g. German).

◆ When typing the title in the available lines of the video, you must never start a new line, i.e. you must imagine that you have only one uninterrupted line.

🔍 Read the warnings carefully, choose the topic/title of the final paper, forward to the supervisor for approval, and await the outcome.

BANKING, FINANCE AND INSURANCE SCIENCES – UNDERGRADUATE DEGREE ESIR

After choosing the topic/title of the final test, students in the three-year courses of the Faculty of Banking, Finance and Insurance must also indicate the modality of the final test: report or thesis.

At this stage, the choice of mode is indicative. If the "Thesis" modality is chosen, the student must then maintain the average requirement when applying for graduation as well.

Final examination modality

REPORT: this should be completed by students with a minimum weighted average of 25/30 (at the end of second year) and a number of credits lower than 90 obtained at the end of the second year after the last call available. It can also be chosen by students who have a higher average and more credits than those indicated above.

The topic of the final examination must relate to a course included in the study plan and the title must be agreed with your professor.

All professors of ESIR courses of the 1st (UC) or 2nd year (USI), both core and elective, can act as thesis supervisors.

- In case of an UC professor, the choice of supervisor follows UC rules and procedures.
- In case of an USI professor, the choice of supervisor follows USI rules and procedures.

Students are free to choose a supervisor among the ESIR professors.

Choice of Supervisor at UC

Student contact directly the professor, asking for their availability to act as supervisor. The School of Banking, Finance and Insurance Sciences has a system that indicates the remaining availability in terms of theses that can be assigned by each professor.

In a dedicated section inside iCatt, every professor has a traffic light that determines their remaining availability:

- Green light -> good availability;
- Yellow light -> low availability;
- Red light -> no availability.

Once the topic of the thesis has been agreed with the supervisor, students have to deposit the title on the UC "graduation" portal. Submission deadlines are indicated in the graduation portal.
