A close-up photograph of a wooden door. The door is made of dark-stained wood with a prominent vertical grain. It features a decorative brass knob in the center, which has an intricate, circular, floral or geometric pattern. The knob is set into a recessed circular area on the door. The lighting is warm, highlighting the texture of the wood and the metallic sheen of the knob.

Integrated Language Learning

Emerald is proud to introduce an exciting new choice for our students: learn English and master 21st Century Life Skills in the same class. This is **Integrated Language Learning**.

Based on research compiled by a number of international bodies, including the World Economic Forum, the Council of Europe and covered in the British Universities 2018 report on “Solving Future Skills challenges”, we have identified the need to provide our English Language Students with a **unique opportunity to develop key soft skills while improving their competence in English**. This will **increase their employability** in today’s workforce. Using a unique syllabus developed in house by Emerald’s Academic expert team, all of our students will now have the opportunity to develop their skills.

Student from B1 to C1 level will benefit from these exciting new modules as part of their Intensive English course at Emerald.

Academic quality

Quality is at the very centre of the Emerald Experience – it is at the heart of all our language courses and the basis of each decision.

We are members of IALC and Quality English, we are accredited by EAQUALS and the British Council, and recognised by Quality and Qualifications Ireland for English Language Teaching.

Accredited by the
 BRITISH COUNCIL
for the teaching

Their feedback...!

Enrico, Marketing & Sales Analytics:

“Talking about my experience I can just say that it was brilliant. Obviously it was a little different from what I've done in Italy, maybe caused by the different language, maybe caused by the totally different sector. However, since the first day I found myself very welcomed in the office, I really enjoyed spending my entire experience there and I can surely say that I've achieved new and important knowledge in my field.”

*“I asked to my company for **an extension of my contract**, and they accepted with some changes (because they would have needed an accounting employee instead of a sales analyst employee, so they offered me to stay there temporarily for two other months, mixing accounting and sales analytics tasks)”.*

Now he lives in Dublin and he's sending resume to other companies!

Their feedback...!

Gaia, Finance and International Business:

“The process is easy and fast, so it is good. I’m learning a lot and I’m improving my skills. I wrote blogs, analyzed data on excel and I wrote a report on the use of AI in finance. I learned a lot about mortgage market in Ireland and also I improved my excel skills”.

And also Simone - Law:

“I’m really enjoying here, the colleagues are really kind and warm, also the kind of job and mansions are very interesting and useful for me. Other three weeks have passed, so time is going really fast.”

And Ottavia - International Business:

“I’m happy to work for this company because we can see and discover new things and work with people with different roles in the company. Right now I’m helping with reports about Irish mortgages, analysis of company data on excel and analysis about our company’s competitors”.
